

Go 1199C to Receive Maximum Benefits!

When you “Go 1199C,” you’ll save money because the Aetna QPOS Plan’s benefits are designed to encourage greater use of 1199C facilities to help keep our members working. There are three benefit levels—you receive the greatest benefit when you use 1199C Panel Providers. **In addition, the Fund reimburses you for the inpatient admission and outpatient surgery copays.**

To receive maximum benefits, choose an Aetna QPOS PCP who admits to one of the hospitals shown below. **Note: ONLY the facilities listed below—at these addresses—are 1199C Panel Providers.** For example, Jefferson Hospital is an 1199C Panel Provider, but other Jefferson Health System hospitals are NOT 1199C Panel Providers.

When necessary, make sure your PCP or specialist refers you to an 1199C hospital. If skilled nursing is recommended, ask for a referral to an 1199C facility.

It is your responsibility to make sure you are using 1199C hospitals and skilled nursing facilities. Do not depend on the assurances of a doctor or other provider. Call the Benefit Fund if you have any questions.
